## Work Experience

### DPR Construction

Sept. 2021 – Present

Automation Developer

- Create and maintain UiPath RPA packages using the Orchestrator Cloud and RE Framework.
- Be Orchestrator Admin, duties including tenants, licenses, robots, users, queues, and assets.
- Port old and develop new RPA solutions in Microsoft's Power Automate Cloud and Desktop.
- Maintain, document, and add features to RPA created by third-party developers.

Other Responsibilities

- Apply DevOps best practices for documentation, source control, and deployment in Azure.
- Create Python FastAPI endpoints for consumption by RPA and dev team applications.
- Act as Salesforce Admin and manage users, forms/dynamic forms, objects, and attributes.
- Create one-time scripts or RPA solutions to migrate or process bulk data.

### Lanehart Electrical Contractors – One-Man Dev Team

Sept. 2020 – Sept. 2021

- Wrote custom tools for reading and updating Excel construction bids with \$0 budget.
- Created VBA and Python scripts to identify and correct errors in the manually entered bids.
- Designed a new contractor form to be linked directly to bids, eliminating manual entry.

### American Fidelity Assurance Company – RPA Developer Intern

May 2019 – August 2019

---

## Other Projects

### University Capstone – Web Dashboard

August 2019 – May 2020

### Sooner Competitive Robotics Team

August 2018 – May 2020

---

## Education
