Trey Sullivent

@ trey.sullivent@gmail.com ⚲ Albuquerque, NM ▮ Remote Work Preferred

Work Experience

Automation Developer   Sept. 2021 – Present
DPR Construction   ⚲ Fully Remote
- Maintain and develop RPA solutions in UiPath, Microsoft Power Automate Desktop and Cloud, and Python.
- Serve as UiPath Orchestrator Admin, including managing tenants, licenses, robots, packages, and assets.
- Apply DevOps best practices for documentation, source control, and CI/CD deployment in Azure.
- Create FastAPI endpoints in Python to return data and charts, integrating GraphQL for larger data sets.

One-Man Dev Team   Sept. 2020 – Sept. 2021
Lanehart Electrical Contractors   ⚲ Dallas, TX
- Wrote custom VBA and Python tools for reading and updating Excel construction bids with $0 budget.
- Analyzed and generated reports on decades of unsorted and unmaintained Excel based documents.
- Designed and implemented a new contractor form to be linked directly to bids, eliminating manual entry.

RPA Developer Intern   May 2019 – Aug. 2019
American Fidelity Assurance Company   ⚲ Oklahoma City, OK
- Create, document, and maintain UiPath RPA packages using the Orchestrator Cloud and RE Framework.
- Maintain, document, and add features to RPA solutions created by third-party developers.

Other Projects

Personal Projects   Always Ongoing
Curiosity   ⚲ My Home Server
- Experiment with self-hosted, open-source software, like custom mail servers, DNS, and web hosting.
- Implement local versions of cloud technologies like backups, home automation, and voice assistants.

Software Engineering Capstone Project   Aug. 2021 – May 2020
PCI Energy Solutions   ⚲ Norman, OK
- Created LAMP stack web dashboard to track software installation status across the country, hosted on AWS.

RoboMagellan and IGVC Competition   Aug. 2018 – March 2020
Sooner Competitive Robotics Team   ⚲ University of Oklahoma
- Developed a ROS architecture to achieve teleoperation and autonomous navigation using a TurtleBot2.
- Implemented a distributed system with Linux, Arduino, and Raspberry Pi components intercommunicating.

Education

B.S. Computer Science w/ Minor in Mathematics   Aug. 2016 – May 2020
University of Oklahoma   ⚲ Norman, OK
- GPA: 3.7/4.0 | ▮ National Merit Scholarship | Honors College Student | Alpha Epsilon Pi President
